CELEBRATE JULY SECOND, THIRD & FOUTH IN NEVADA CITY

The Nugget Is California's Leading Mining Weekly

Nevada City Nugget

VOL. VI, NO. 33 | The GOLD Center | NEVADA CITY, CALIFORNIA | The County Seat Paper | FRIDAY, JUNE 24, 1932

NEVADA CITY TO BE HOSTESS TO CROWDS ON 4TH

The Fourth of July minus the customary fire-works will be none the less festive in Nevada City when the city entertains her neighbors and friends on July 2, 3 and 4. Many events of unusual interest will fill the void and if present plans of the general committee are carried out in the way for which Nevada City is noted all who attend will be well compensated.

The gala event will be ushered in Saturday night, according to present plans, with a kiddies parade and other features.

Sunday morning at 8:30 o'clock will witness the skeet shoot at the Skeet Club grounds, which event is expected to draw participants from many points in Northern and Central California with a number attending from the bay area. Prizes and trophies will be awarded in the several events.

July Fourth features will include a parade of decorated floats depicting events and will be participated in by civic organizations, business houses, industrial concerns, with a section also for the kiddies. The parade will be followed by a speaking program with well-qualified speakers delivering the addresses.

The afternoon program includes a sports program, including a water fight and other events. Several features for the afternoon program are yet to be completed.

There will be a carnival in connection with the occasion. Amusement devices and the usual features will be among the attractions for the three days.

Chairman Tobiassen of the general committee states that according to present plans the celebration will be one of the best of the many successful celebrations for which this city is noted. The committee has issued an invitation to all to spend an enjoyable three days in the cool mountains.

MRS. ADELA ANGIOLINI PASSES TO BEYOND

Mrs. Adela Angiolini passed away at the family home on Boulder street Sunday morning after months of suffering which she bore with great fortitude.

Born in Rossano, Italy, September 20, 1882, Mrs. Angiolini grew to womanhood in her native land. There in 1900 she married Mr. Angiolini, and in 1903 he came to the United States to make a home for the wife and child born to them. In 1909 with her young son Tarquininio, Mrs. Angiolini came to Nevada City and this has been her home ever since. Subsequent to her arrival in this city another child, Clara Angiolini was born, and with her brother and father mourn her passing.

Though she centered all her activities in her home life, seldom leaving that haven of her loved ones, Mrs. Angiolini had many friends not only among the people of her own nationality, but also among other residents of this city. She was a woman who was highly respected by all who knew her, and her death in the prime of womanhood leaves many a heartache

The body was taken in charge by the Holmes funeral home and prepared for interment. Funeral services were held Wednesday morning at 10 o'clock at St. Canice Catholic church where a requiem mass was celebrated by Rev. Father O'Reilly for the repose of her soul. Interment was in Pine Grove cemetery.

—0—

Sugar Grower Visits—

Joseph Martin, sugar grower of the Hawaiian islands, is visiting his parents on Gold Flat. He is connected with the experiment station of the Hawaiian Sugar Planters Association. Mr. Martin graduated from the Nevada City high school. He is on a vacation and has seen many parts of the world since leaving home.

Road to Bowman Dam Open—

The road from Graniteville to Bowman's Dam and beyond to Milton has been cleared of snow and obstruction for auto traffic, late last week. Several auto parties have gone in to enjoy camping and fishing.

Hoff and Associates Post Bonds in Wage Trial

J. M. Hoff, who operated mines in the Willow Valley district east of Nevada City, last year, and charged with violation of the semi-monthly pay law and the state wage law, filed a bond in the sum of $2,400 for his appearance in the justice court of W. L. Mobley on June 28 to answer to the charges.

At the same time an agreement was also filed by Mr. Hoff, H. J. Rogers, A. G. Nicolson and H. A. Davidson to appear and answer to the same charges.

The complaint was issued on the alleged failure of Hoff and the Nevada County Mines Company to pay men employed by the company on a group of mines in the Willow Valley district. The company shut down some time ago and it is declared that more than $18,000 in wages is due the men in the company's employ.

—0—

NEVADA CITY PIONEER CALLED BY DEATH

Mrs. Hannah Langman, pioneer resident of Nevada Ctiy, who has been a semi-invalid for about 13 years, passed peacefully away Monday evening at her home on the corner of Clark and Pine streets. Her illness was from an ailment following an attack of flu, which she contracted when she nursed her youngest son, Joseph, in his last illness.

She has seen much sorrow in her life, having reared to manhood five sons and laid them away in their graves, besides a loving husband who has been dead a number of years.

She was born in Davenport, England, April 4, 1847, and was thus a little past 85 years of age when the end came. She came with her parents, the late Mr. and Mrs. James Monk, from England to Houghton, Michigan, and there she met and married the late John Langman.

It was 62 years ago that she came to California, and most of that time she has lived in Nevada City. Though all her thoughts were of her home and loved ones, when sorrow and trouble visited friends and neighbors she was first to offer aid. During the later years of her illness relatives and friends of those she had aided in time of trouble came to express to her the appreciation of her kindness that they could never forget.

She was that type of womanhood of the olden days whose good deeds were many and only those who were the beneficiaries knew of these loving acts of kindness that mean so much. She was beloved by all who knew her.

A touching little event occurred shortly before the funeral of Mrs. Langman when poor old Indian Josephine came to the house. Before she went she asked that she might see Mrs. Langman. She wept bitterly and said, "she has always been good to me." The old Indian woman has been going to the Langman home for many years and was always remembered with food or money.

Mrs. Langman is survived by four daughters, all residents of Nevada City: Mrs. Nellie Veale, Mrs. Libbie Shields, Mrs. Ray Hays and Miss Alicee Langman. There is also one grand-daughter, Mrs. Claire Ivey of Chico, and one grandson, Edwin Shields of Havana, Cuba.

One sister, Mrs. William Davey of Grass Valley, also survives.

The funeral was held Wednesday afternoon at 2 o'clock from the family home. Rev. H. H. Buckner of the Methodist church officiated. The arrangements were in charge of the Holmes funeral home.

—0—

Sportsman's Club Opened—

Sportsmen of the Grass Valley club cleared the road of snow drifts, chopped out trees and logs, to open the Bowman Lake-Lake Faucherie road last week end. Fishing proved not so good at the lake. The lodge did not suffer from the heavy winter snow.

Band Concert Enjoyed—

The concert given by the Nevada City high school band Wednesday evening on the National Hotel balcony was carried in the balmy air to the biggest portion of the city. L. E. Sweeney, music instructor, has been receiving many compliments on the concerts. A large crowd was present to enjoy the music.

TENTATIVE PROGRAM FOR NEVADA CITY'S FOURTH OF JULY CELEBRATION, JULY 2-3-4

(Complete program will be published next week)

Night of July Second—Kiddies' Parade and other features.

Sunday, July Third, all day—Competitive Skeet Shoot at the Skeet Club grounds west of town.
Sunday evening—Band Concert.

Morning of July Fourth—Mixed Parade, featuring Juvenile, Industry, Societies.
After the Parade—Literary Exercises.
Afternoon—Sports Program, including Waterfight and other features.
There will be a carnival in connection with the celebration for the three days.

CREWS NOW AT WORK ON MANY PROPERTIES

From up-country comes news of the different mines at work at the present time.

The Joubert mine ,owned by Fred Joubert, is still running one monitor. This mine has been hydraulicking since early in the spring with two monitors running part of the time. About seven men are employed at the property.

At the Indian Hill mine near Camptonville there is a crew of six or seven men at work. Splendid progress has been made in hydraulic work this season. Fred J. Joubert is superintendent at the mine.

The Altaview mine near Camptonville is working a good-sized crew of 19 men. At present they are engaged in drifting in the immense gravel deposits and stoping the ore.

At the Boss mine between Sweetland and North San Juan a crew of 14 men is employed. This is one of the most promising of the new properties to be opened up within the last few years, according to reports received. Electricity has been cut in to the mine and a large amount of machinery installed. The Bradley interests own this mine and have taken up a number of claims in the vicinity, giving the property quite a large acreage.

Some splendid ledges have been uncovered and a lot of development work is going on at present.

—0—

Rich Quartz Vein Is Found in Lucky Strike

John Solaro and two partners have succeeded in establishing two pumps in the 70-foot shaft on the Lucky Strike property which they recently took over on a lease.

Good values have been discovered in the gravel, but a veing of quartz with strong indciations of being a rich gold producer has been encountered. This veing is on the north side of the shaft so the partners are drifting on it, leaving the gravel in the well-known Town Talk channel until a later date.

This property was formerly called the old Shanghai and many thousands of dollars have been taken out in early days.

—0—

A NEW HOME BEING BUILD BY GEORGE CLUTTER

George Clutter of New Castle is in Nevada City tearing down an old building on his property near the home of Miss Mary Hoskins. He will build a cottage on part of the lot, leaving room for a one-car garage to the west.

The old house was built about 30 years ago and was the property of the late George Clutter, Sr., who was a millwright and carpenter.

—0—

EMPRESS GOING DEEPER

Out at the Empress mine Superintendent Jacobs is working down, with the 1000-ft. level as the present objective. The company is installing a new hoist.

—0—

BIRTHDAYS CELEBRATED

Two birthdays were celebrated last Sunday on Mt. Oro when 18 friends motored up from Sacramento, Grass Valley and Nevada City to spend the day with A. J. Edminster.

A large birthday cake and many other good things were included in the big lunch that was taken up by the crowd who surprised Mr. Edminster.

The occasion celebrated the birthdays of Mr. Edminster and Robert Ewing, which came within a few days of each other.

Those enjoying the trip were Mr. and Mrs. Wesley Davis, Will Davis, Mrs. DeWit, Miss L. DeWit and Dick Martin of Sacramento, Mr. and Mrs. Hawkins and children and his mother of Grass Valley, Mr. and Mrs. Robert Ewing, Bert Tucker, Mrs. Will Davis, Miss Alice Davis and Frank Lalaba of Nevada City.

New Custom Mill Here Is Now in Operation

Nevada County Custom Milling Co. announces the installation, a mile and a quarter west of Nevada City on the Downieville highway, of a custom mill, which fills a long-felt need in this district.

Ore is already being received from Placer, Sierra and Nevada counties, and the mill will doubtless do much to further encourage many activities here.

—0—

LARGE BLOCK OF GOLD BEARING QUARTZ STOLEN

The Idaho-Maryland Mines Company reported to the sheriff's office that the block of ore measuring 4x3x3 feet in dimensions and which was exhibited at the state fair last year, had been stolen from their office within the last few days.

This specimen was the principal attraction in the ore exhibit at the fair, the gold bearing discernable to the naked eye.

While no estimate of the value of this block in gold has been made, it is believed to have run into a comparatively large sum.

So far no trace of the thief or thieves has been found.

Methodist Ladies to Hold Food Sale Saturday

Most people like to eat food prepared by others now and then, especially if it is good food.

Saturday, June 25, the Ladies of Circle No. 2 of the Missionary Society of the Methodist church are going to give everyone a chance for a change for the day. They will hold a food sale in the office of the Nevada City Nugget.

These good ladies all have a reputation of being wonderful cooks and artists in the art of preparing dainty and delicious salads, cakes, pies, etc.

Let the lady of the house take a day off from her cooking responsibilities and patronize these ladies in the sale of the many appetizing eatables they will have on display.

—0—

SKEET SHOOT TO BE FEATURE JULY THIRD

A skeet and blue rock shoot will be held at the field of the Nevada City Skeet Club Sunday, July 3. The shoot is to be open to the public and some interesting scores are expected.

The club is expectant of an extraordinary attendance of spectators as well as shooters, the the grounds as usual will be open to the public without admission charge.

Four class shoots will be held, it is announced. Class A will be men who are able to shoot from 22 to 25 birds; Class B of shooters with averages of 18 to 22; Class C is open to those who score 15 to 18 birds and Class D, or novice class, is comprised of marksmen who break 15 birds or under.

Trophy awards will be made to the high gun man in each class. Entrance in either class is open to all, it is stated and no affiliation with any club is necessary. The trophy shoots will be for 50 birds.

The shoot will commence at 8:30 o'clock and as the shoot is on Sunday it is anticipated the attendance will be large. Club officials state they have received word from shooters from Marysville, Tracy and the bay area announcing their intention to attend the one-day meet.

Besides the four class trophy shoots a "miss-and-out" contest will be a feature and this will also be open to all. Arrangements for handicapping will be made to allow all contestants an even chance of competition. A 100-bird blue rock shoot is also to be staged and this is expected to be very popular.

A cash award will be made to the high gun in this event. Quite a number of Sacramento blue rock shooters are expected to arrive to participate in this event.

The local field will be open for practice on Saturday, it was announced.

—0—

SHEPP MINE TO REOPEN

Charles Mason of San Leandro passed through this city recently en route to Graniteville. He has taken an option on the Shepp mine, which is owned by P. S. Waldron. Three men are now employed unwatering the shaft preparatory to developing the property.

—0—

MURCHIE MINE

A crew of about 30 men are at work at the Murchie mine east of Nevada City.

Sinking in the main shaft is the principal work being done at this time. Several months ago an old shaft was reopened to give better ventilation in the mine.

About the first of the year several heavy pieces of machinery were taken to the mine and installed.

TOP STREAK IS UNCOVERED AT BALTIMORE

On several occasions the Nugget has carried interesting articles on the Mayflower mine near Forest Hill.

Word again reaches us that Supt. George Duffy has announced that a "top streak" of pay dirt has been found in the Baltimore mine, one of the Mayflower properties, which will justify the operation of a nine stamp mill on the property. The Mayflower properties consist of 1,400 acres.

The Mayflower consolidation was purchased in small lots by the late W. F. Detert, known as the "Lone Wolf," just before his death, and is now owned by the Detert estate, which is managed by a nephew, Richard Detert. Mr. Detert paid cash for every property he bought in the Mayflower consolidation.

The pay dirt is being brought to the mouth of a tunnel on the old Baltimore property. This is a tunnel 8,600 feet in length. At present the top streak worked is between 58 and 59 feet across and varies from 18 inches to a yard in depth.

Mr. Duffy believes the channel will not taper out, as it has been picked up at another point 5,500 feet in. He believes the work will prove the value of the gravel and result in a larger mill being operated in a short time. The streak, he believes, extends into the Banner and Excelsior claims of the Mayflower consolidation.

Supt. Duffy points out that "top streaks" are not a novelty in this region, and that the original Mayflower and Paragon mines at one time contained top streaks that paid dividends of more than $2,000,000 in the peak of the Forest Hill mining period.

The Baltimore was owned by George McAulay, Auburn banker, and Joseph Steiner, Petaluma hotel man, until the sale to Mr. Detert. Mr. McAulay has always contended the mine contained a profitable channel if it could be located.

—0—

COMMISSION TO GET YUBA PASS PLANS

The supervisors of Nevada and Sierra counties with civic and highway leaders will lay plans of Yuba Pass before the highway commission on June 24. They seek to keep the California highway commission equipment working on the Yuba Pass highway between Nevada City and Downieville, doing work similar to that of the past two years. They desire the work to continue on the route indefinitely or until the entire route under discussion is widened and straightened.

The last of the $100,000 appropriated for the widening work will be used between Aug. 1 and 15 and unless new provisions are made, work will stop. At present the highway commission has a large power shovel, bulldoggers, drilling equipment and a fleet of trucks widening the river road to match the federal aid highway which is now complete from Downieville to Sattley on over the Yuba Pass.

—0—

Ponemah Council Elects—

The following chiefs were elected to serve for the new term in Ponemah Council No. 6, D. of P: Pocahontas, Elsie Dent; Prophetess, Lila Day; Wenonah, Grace Evans; Powhatan, George Falmbigl; Keeper of Records, Elma Hecker; Collector of Yampum, Della Walsh; Keeper of Wampum, Lillian Stuart; Trustees, Edith Flynn, Elsie Dent and Lenore Coughlin. District Deputy Rachel Penrose will install the newly-elected chiefs the second meeting night in July as the regular first meeting falls on Monday, the 4th.

The Great Council of California convenes in Santa Rosa in August and delegates will be: Helen Kieffer, Rachel Penrose, Elma Hecker and Grace Englebright. Alternates are Nettie Gildersleeve, Lila Day, Jessie Costa and Alene Lewis. Helen Kieffer was appointed district deputy over Poneham Council for the ensuing term.

LEGAL NOTICE

State of California
Department of Public Works
DIVISION OF WATER RESOURCES
Sacramento

NOTICE OF APPLICATION TO APPROPRIATE WATER

Applications 7024 & 7113

NOTICE IS HEREBY GIVEN, That EDWARD BICKEL, P. O. Box 881, Nevada City, California has applied to the Division of Water Resources, Department of Public Works, State of California, for permits to appropriate unappropriated water, subject to existing rights.

Description of Project
Application 7024

Date Filed: July 31, 1931.
Water to be Appropriated from: Greenhorn Creek, tributary to Bear River.
County of: Nevada
Amount applied for: 38 cubic foot per second
Diversion season named: January 1st to December 31st of each season
Water to be used for: Mining and Domestic purposes
Point of Diversion within: NE¼ of NW¼ of Sec. 10, T. 16 N., R. 10 E., M. D. B. & M.
Place of Use described: Sailor Flat Mine of Fenton Gold Mining Corp., within Sections 4, 5 & 8, T. 16 N., R. 10 E., M. D. B. & M., as shown on map filed with the Division of Water Resources.
Water will be returned to: Greenhorn Creek within NW¼ of NE¼ of Sec. 8, T. 16 N., R. 10 E., M. D. B. & M.

Application 7113

Date Filed: November 2, 1931
Water to be appropriated from: Little Greenhorn Creek (sometimes called Spanish Ravine) tributary to Greenhorn Creek, thence Bear River.
County of: Nevada
Amount applied for: 15 cubic feet per second
Diversion season named: January 1st to December 31st of each season
Water to be used for: Mining & domestic purposes
Point of Diversion within: NW¼ of NE¼ of Sec. 4, T. 16 N., R. 10 E., M. D. B. & M.
Place of use described: Sailor Flat Mine of Fenton Gold Mining Corp., within Sections 4, 5 & 8, T. 16 N., R. 10 E., M. D. B. & M., as shown on map filed with the Division of Water Resources.
Water will be returned to: Greenhorn Creek within NW¼ of NE¼ of Sec. 8, T. 16 N., R. 10 E., M. D. B. & M.

Relative to Protests

Blanks upon which to submit protests will be supplied free upon request by the Division of Water Resources.

Any person desiring to protest against the granting of such permits shall within 60 days from date hereof, file with the Division of Water Recourses, Sacramento, California. a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the applications and shall contain the following information:

(1) Statement of the injury which would result to protestant from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of such land or place of use and of the point of diversion of the water.

A COPY OF THE PROTEST SHOULD BE SENT TO THE APPLICANT AND THIS OFFICE NOTIFIED THAT THE SAME HAS BEEN DONE.

EDWARD HYATT,
State Engineer.

GREENHORN MINE OPENS

The Escabara mine, on Greenhorn mountain, one mile from Davis ranger station, is a new development and bids fair to be a profitable one.

A shaft has been sunk to a depth of 56 feet crosscutting from that point. Approximately 50 tons of freemilling ore are now on the dump. It is said this ore will average $30 a ton.

Mine buildings have been erected and a residence built with a view to permanency. Recent additions to mining equipment are an air compressor, drills, stopper, concentrating table and a two-stamp mill. The workings are under supervision of a Mr. Frosh.—Tehachapi News.

APPOINTED AGENT

Nathan L. Fairbairn, safety engineer of repute, has been appointed compensation and fire insurance consultant and agent for a group of mutual companies. His office is located in the Mills building, San Francisco.

JUDGE TUTTLE

(Editor's Note: The following editorial is taken from the Truckee Republican and expresses the sentiments to be found in the eastern section of the county.)

Judge Raglan Tuttle's term of office as judge of the superior court of Nevada county expires this fall, and he has announced that he will be a candidate for reelection.

Judge Tuttle has not only established a reputation for being exceedingly fair and just, but he has demonstrated his judicial knowledge and capacity time and time again. His qualifications of perceptiveness and discernment and ability have brought forth such a reputation of eminence, that he was elected president of the State Judges' Association, an organization composed of all the judges in California, and he is frequently called upon to assist the appellate courts of the state. To receive such recognition, is, indeed, not only a glowing compliment to Judge Tuttle but a distinct honor to Nevada county for having a judge of such judicial standing.

The fact that Judge Tuttle has served this county with such a high degree of efficiency and distinguished ability, and has brought honor to Nevada county, is sufficient evidence in itself that the citizens of this county should not only show a high spirit of loyalty, but they should consider it a privilege and a pleasure to re-elect Judge Tuttle for another term at the fall election. For if we as citizens, fail to acknowledge and support a judge who has achieved such a distinguished record for fairness and judicial ability, pray what incentive can a public servant have to throw his whole heart and soul into his work?

NEWS IN BRIEF

Wesley L. Davis, Jr., publisher of The Nugget, and Mrs. Davis returned yesterday from a month's combined business and pleasure trip in the south.

Thomas Bolling is down from his mining property on Quaker Hill.

Elmer Poore, who has mining interests in the You Bet mining section, visited in Nevada City Wednesday.

Mr. and Mrs. Charles DeWhite of Seattle, Wash., who are interested in mining property in this section, were in Nevada City Tuesday.

Mr. and Mrs. Earl Jones are now living in the apartment upstairs over the undertaking parlors of the Little Church funeral home. James McClish handles funeral arrangements.

Many Girls at Camp Celio—

The largest number of Camp Fire Girls that were ever in Camp Celio are assembled there now from Oakland, Berkeley and Alameda. Miss Eleanor Kendall is the executive secretary at the camp this year. There are more than 200 persons at camp. These include the girls, instructors and assistants. One more group of girls will come to camp before the session ends. About half of the 125 girls that were first to arrive in camp have remained over for two weeks longer.

Beckman Robbed—

Henry Beckman was robbed at an early hour Tuesday morning by a masked thug. After Beckman had been slugged as he was entering his room in the Grissel apartments, he was robbed of about $50 in gold. Nightwatchman Jeffrey responded promptly to the call sent in by neighbors but no trace of the robber has been found.

More Federal Flour for Needy—

Judge George L. Jones, chairman of the Red Cross chapter in Nevada City, has announced that there remains a considerable amount of flour. This flour was sent out from national headquarters to be distributed to the needy. Quite a quantity has already been distributed. The Red Cross cares for ex-service men and their families while the Nevada City Benevolent Society supplies our to those who apply to them for assistance.

LUMBER TALKS

Spend the 4th of July in Nevada City

On the Fourth of July Nevada City is preparing to entertain her Northern California friends and neighbors. Like all good hostesses, she is putting all things in order, and preparing to make a favorable appearance upon that festive occasion.

Many of her citizens are repairing and remodeling their homes, and beautifying the gardens for which Nevada City is so justly noted.

We have in stock all the materials which may be needed in the work of rejuvenating the appearance of Nevada City beautiful.

Summer breezes rustle gently
Thru her groves of fir and pines,
Golden memories link her present
With the days of forty-nine.

Like a queen she sets serenely
By her rippling mountain rills,
Beautiful Nevada City——
City of the seven hills.

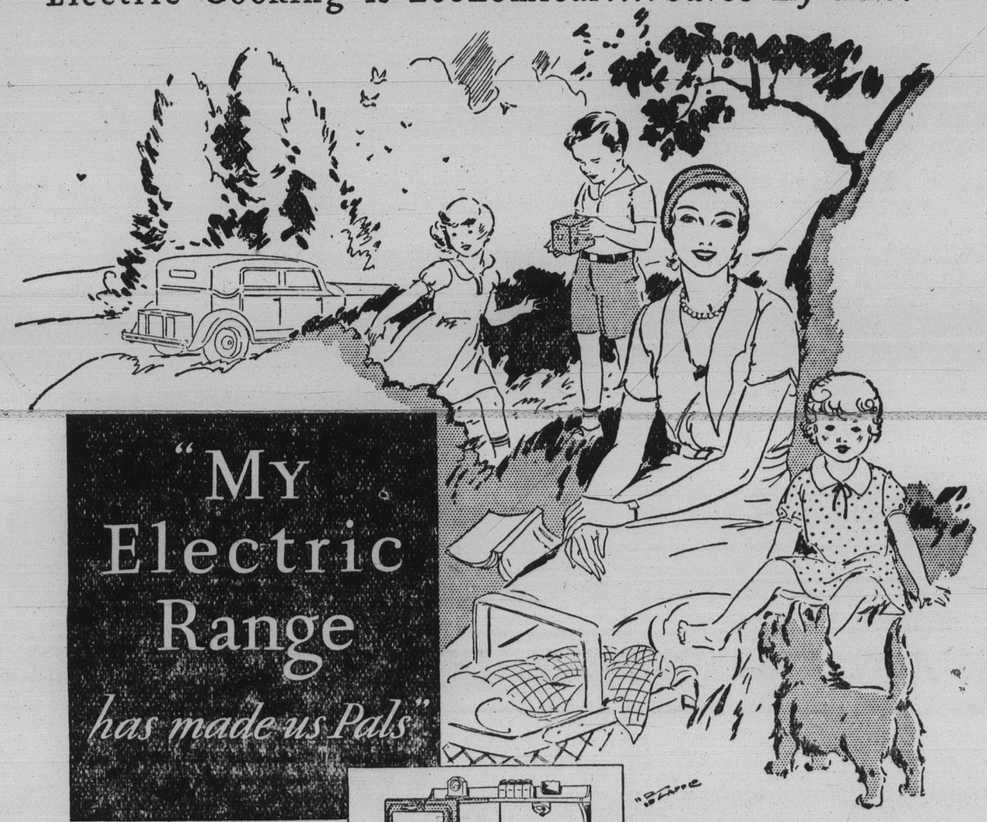
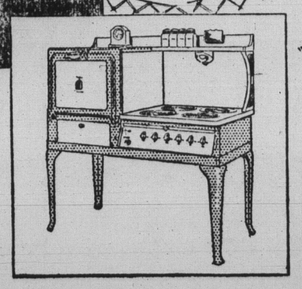
★ *MORE THAN 210,000 CALIFORNIA WOMEN SAY....*

Electric Cooking is Economical.... Saves my time!



"My Electric Range *has made us Pals"*



Out picnicking—being a pal with her children while school vacations are on and sunny days entice little play-trips to Nowhere—she is confident dinner will be ready, perfectly cooked in her electric range when she gets home.

Such an incident is a common pleasure for the more than 210,000 California women who cook with electricity.

The evening meal placed in the oven of an electric range in the morning receives perfect chef-cooking when a clock turns on the current and thermostats regulate cooking temperatures.

Meats acquire charcoal-grill brownness without basting; tender and juicy with sealed-in flavor. Vegetables retain minerals important to health because so little water is needed. Pet recipes for favorite desserts become time-after-time successes. Truly nothing finer has ever been created for cooking than the modern automatic electric range.

You can afford to cook this modern way. One of these speedy new electric ranges costs no more than any other good range. And cooking costs average but one cent a meal per person.

See the beautiful new electric ranges. Come into our office or your electric dealer's store. Take advantage of the Special Offer, which includes easy terms.

Nevada City Nugget

VOL. VI, NO. 34 | The GOLD Center | NEVADA CITY, CALIFORNIA | The County Seat Paper | FRIDAY, JULY 1, 1932

BIG PRODUCER MAKES PLANS TO INCREASE RUN

After a record production last year, the Idaho-Maryland is starting on a program for increased production and efficiency.

One of the most noticeable changes will be in the new headframe, which is being built directly over the old headframe, 105 feet in height. The old wooden headframe now in use was a relic of the old Union Hill property. A new Wellman-Seaver-Morgan 300-h.p. electric hoist is to be installed. Two mechanical muckers are in use in the shaft, one on the 100-foot and one on the 1400-foot level. The mechanical muckers do not cut down on the number of men employed, taking three men to a mucker, or the same as hand muckers. The amount of material handled is nearly doubled by this new mechanical method.

Great success has been experienced in the flotation plant installed at the Brunswick mill last year. Four Deister concentrators are being installed to replace the amalgamation plates. Concentrates are to be shipped to Selby's smelter in San Francisco.

At the present time the Idaho-Maryland is producing 160 tons of ore per day and this is to be increased to 225 tons as soon as the concentrators are installed. The company is building a large concrete ore bin which will hold a large amount of ore. The Nevada County Narrow Gauge railroad is building a spur track to the mill in order to haul supplies.

The cutting of the 1,000-foot payshoot of the Idaho-Maryland Mine on what is termed the 2,000-foot level, or 50 feet below the deepest former explorations of the mine, recently added still another factor to increase the potential life and production of the property.

This discovery followed within ten days the discovery that the payshoot was strongly exemplified on the 1,000 foot level, with every practical geological indication that it comes through to a point near the surface. Officers of the company, basing their conclusions on the various areas of proven ground, and the history of other Grass Valley district veins, assert that the shoot is potentially 4,000 or more feet vertical and at least 1,000 feet lateral. While exact figures are withheld, the values are understood to run well above $12.50 per ton on the average.

Several pieces from this famous mine made in December were on exhibit at the Palace Hotel in San Francisco, May 16, when the United States Chamber of Commerce met in San Francisco, attracted considerable attention. A piece the size of an ordinary brick was estimated to be worth $2,500.

A cost accounting system has been installed in the office. This system was worked out by Mr. MacBoyle when he was with the Union Hill mine years ago and the method is now being used. An international business accounting machine has been installed for cost accounting purposes. This is the same machine used by the United States Bureau of Census in tabulation of census data.

Everyone who knows the background of the Idaho-Maryland, which has been printed before, rejoice in the good fortune that has come to the property through the president, Errol MacBoyle, and Superintendent Albert Crase.

Extensive development work is being done at this time and enough ore is blocked out to last for five years, it is believed.

This mine has meant much to Nevada county, giving employment to 180 men. In December they purchased the Loma Rica ranch. It is under the care of Mr. Larsen, an experienced orchardist of Placerville. Fourteen men are employed on the property. Already a great improvement is noticed in the property. The orchard is one of the largest in the county, consisting of 220 acres of pears, plums, applies and cherries.

A hard of 22 registered Guernsey cows was bought for the Le Duc ranch, which is part of the Idaho-Maryland property.

It seems odd to mix agriculture with mining, but Mr. MacBoyle is diversified in his tastes.

The Loma Rica property was taken over to save it from the auctioneer's hammer and rather than see this property destroyed, Pres. MacBoyle took it over as it adjoins the Brunswick property and it also had mineral possibilities.

This is the type of citizen that we find in Mr. MacBoyle. He is interested in his county and anxious to do all he can toward its development.

—0—

EPWORTH LEAGUE TO HAVE FOOD SALE SATURDAY

The Epworth League will hold a food and baked goods sale Saturday at the Nugget office. Many delicacies are to be offered and as the double holiday of Sunday and Monday is a time when housewives are usually overburdened with work, this opportunity should not be overlooked to stock up with ready cooked foods.

Winfield and Jackling Take Over Mynough Ranch

C. Jackling and George W. Winfield, with their engineers, Ralph Knowland and E. A. Julian, of the state of Nevada, spent a few days in Nevada county looking over mining properties.

The two men have purchased the Moynough Ranch, which adjoins the Empress Mine in the Newtown district west of Nevada City.

George Winfield is noted for his holdings of large mining properties in Nevada. These properties are said to be rich in gold, silver and copper.

—0—

DRIFT MINING FOR GOLD AT VALLECITO

The methods and costs of drift mining at the property of the Vallecito Mining Co., Angels Camp, Calif., are described by Don Steffa, general manager of the company, in Information Circular 6612, of the United States Bureau of Mines.

The Vallecito Western mine is a placer gold deposit in the ancient stream bed known as the Tertiary Valaveras. Churn drilling, followed by underground development from a 1150-foot shaft, proved the existence of economically mineable gravels in the channel bottom, and outlined the shape of the "pay areas." The extraction of a portion of one of these areas has provided a check on the thickness, grade, and working characteristics of the gravels, and given a basis for cost estimates.

The gravel from development work and from breasting has been treated in a plant near the shaft collar. The recovery process consists essentially of disintegrating the fines through riffled sluices to recover the gold. On the basis of the retreatment of 200 tons of mill tailings it is estimated that the mill recovery is nearly 98 percent.

The combined mining and milling cost of the 9,500 tons of gravel taken from the trial area mentioned above was $3.10 per ton.

Details of the history of drift mining, the geology of the placer deposits in this district, and of the operations at the Vallecito Western mine, including drilling, shaft sinking, drifting, breasting, pumping, and milling, are given in Information Circular 6612, "Mining and Milling Methods and Costs at the Vallecito Western Drift Mine, Angels Camp, Calif.," copies of which may be obtained from the United States Bureau of Mines, Washington, D. C.

ENGINEERS VIEW MINES IN GRASS VALLEY SECTION

The California section of the Electrical Chemical Engineers Society held its annual field meet in Grass Valley Saturday, about 20 members, mostly from the bay region, attending. The day was devoted to inspection of the mines of the Grass Valley district, with particular reference to their chemical processes. At the North Star mine they were taken down the 3,500 vertical shaft and through the deep workings.

At the dinner conference held during the evening the visitors were addressed by Fred M. Miller, Grass Valley mining engineer, who detailed the history of the district and its foremost mines. The affair was arranged by L. S. Wincapaw of the Golden Center mine. P. C. Haesler of San Francisco presided.

—0—

SNOW POINT MINE TO START OPERATIONS SOON

The Snow Point placer mine on the Middle Fork of the Yuba river north of Nevada City, is to start operations in earnest within the next few days.

Proposed development will include driving 2,000 feet of tunnel through hard rock and equipment suitable for this work has been purchased.

Andrew Walker of London, Eng., is superintendent of the property and hopes to have a crew of 15 men employed within the next few days.

—0—

RICH ORE STRIKE IS MADE NEAR MARIPOSA

A very spectacular ore strike was made at the Dilty mine near Mariposa, when miners blasted from the vein a gold speciment weighing 52 pounds, troy weight, and valued at $9,000. This specimen was almost solid gold, but small pices of quartz had been blown into it. The specimen was immediately cleaned and sent to the mint in San Francisco.

—0—

SLIDE MINE BONDED TO SAN FRANCISCO COMPANY

We learned this week that the old Slide mine has been bonded to a San Francisco company and will now be known as the Owl Hill Consolidated. The plans of the new company are not divulged at the present time, but we hope soon to have some very interesting news concerning this property. Old-time residents will be pleased to hear this as all early residents had unbounded faith in hidden wealth in this old mine. The property is represented by R. Dalberg, who with his family own the mine.

The Record-Producing Idaho-Maryland Mine

BAY CAPITAL TO ENTER RATTLESNAKE MINE

San Francisco capitalists will take over the Rattlesnake hydraulic mines near Weaverville on August 1. This is the statement of Charles D. Trask of San Franrisco, who was in Weaverville recently on business connected with the company.

The property consists of 11 claims, seven of which were formerly owned by the C. D. Brown estate, the other four at one time operated by H. Reichel. The holdings are over three miles in length and the company has a water right of 3,000 in.

Active work is now being done, holeing and testing the various bars and benches. The benches consist of immense deposits of wash gravel that have never been worked, and a number of bars in the river that remain untouched. In the early days these bars were neglected because of water being inaccessible. Some large finds have been made in the Rattlesnake group, some nuggets running to the value of $150.

Development has been deterred owing to the fact that equipment and supplies have had to be brought in by pack train, a distance of 17 miles, requiring five hours for the trip. It is said the federal government contemplates extending the road from the Yellowstone mine to Keystone, and this will probably spur activity in the district, which is said to be rich in coarse gold.

Eleven men are now employed. On the upper part of the Brown property the flumes are connected, the ditches claned out and a giant is being used with a heavy head of water under the management of J. P. Killaen, assisted by his son, J. P. Killaen, Jr., and Nils Bratland.

The upper part of the Reichel property is being worked by John Fritz, L. J. Otis and C. C. Kelly. The middle section of the Reichel plot is being hydraulicked by J. B. Davis, C. C. Camerford and Bob Strong. The lower portion is being prospected by R. S. Buschman and Joseph Shubih. Bedrock is said to be 250 feet deep and there is sufficient gravel in sight to last many years.

Custom Mill Will Greatly Benefit Many Small Mines

A custom mill has been established for this section in the old Queen Lil mill about a mile west of Nevada City on the Downieville highway. The mill is operated by the Nevada County Custom Milling Company.

This mill will handle about 35 tons daily, employing several men, and in time will lead to the employment of a very considerable number.

The mill has been a long-felt need and since our recent announcement inquiries have come in, and many have made application for treatment of lots of ore. They will all be accommodated as soon as the organization is completed, it is stated by those sponsoring the project.

—0—

INCREASED TAXES ARE NOW OPERATIVE

The Revenue Act of 1932 became a law on June 6, 1932, at 5 p.m. Except as otherwise provided the act took effect upon that date.

The effective dates of the various revenue producing provisions of the bill are as follows:

Income tax act—January 1, 1932.

Additional estate taxes—June 6, 1932, after 5 p.m.

Gift taxes—June 6, 1932, after 5 p.m.

Manufacturers' excise taxes and miscellaneous taxes—June 21, 1932.

Tax on use of boats—July 1, 1932.

Increased postal rates on mail matter of the first class—July 6, 1932.

Increased postal rates on advertising portion of any publication entered as second class matter subject to zone rates of postage under existing law—July 1, 1932.

The following are examples of the classes of persons who are required to make returns and pay taxes newly imposed under the act: the manufacturer, producer or importer of the following articles: lubricating oil, brewer's wort, grape concentrate, automobiles, candy, chewing gum, toilet preparations, furs, jewelry, radios, refrigerators, sporting goods, fire arms, cameras, matches, soft drinks, tires and tubes and gasoline. The following articles or services are also subject to the tax: telephone and telegraph messages, electric energy, bank checks, lease of safety deposit boxes, admission fees, transportation of oil by pipe line, and the users of pleasure boats.

—0—

RUBY GRAVEL MINE INSTALLS NEW MACHINERY

The new machinery which was installed at the Ruby gravel mine this spring was given a test run and is said to have come up to the expected 98 percent recovery.

The machinery was installed on the advice of C. E. Gilman, San Francisco, chief engineer for the Sierra Pacific Gold Company, who, with other Oakland and San Francisco men, was present to see the initial turnover.

A small crew of men has been employed at the mine, which is near Forest above Allephany, all of last fall before the heavy snow started.

—0—

IRONSIDES MINE MAKES STRIKE IN NEW RAISE

High grade ore has been struck in the new raise being driven in the Ironsides Mine, operated by the Orba Mines Co., at Alleghany. This strike has aroused considerable interest throughout the district. While it is a well-known fact that nearly all these mines have large past production records, any new discovery encourages greater activity.

Steady development has been under way for a little more than two months and the new company feels greatly encouraged over results obtained.

The company recently purchased the Rainbow Extension property and a definite plan of development is to be started on this property in the very near future, it is reported.

Arthur Beck of San Francisco is president of the company.

Moratorium Bill Extended; Claim Jumping Minimized

Senator Oddie of Nevada and Congressman Harry Englebright of this district have succeeded in having a bill passed by both houses and signed by President Hoover eliminating any possibility of dispute in connection with the mine assessment moratorium. The new bill extends the moratorium from midnight June 30 to noon July 1.

As amended, the act makes impossible any re-locating of mining claims on account of non-performance of the assessment work this year.

—0—

STATE MINERALOGIST VISITS MINE DISTRICT

State Mineralogist W. W. Bradley, accompanied by two members of his staff, are making a tour of the mother lode district, going on to Sierra and Plumas counties, to get a birdseye view of conditions.

So many inquiries have come into the Bureau of Mines in regard to placer mining that he undertook this trip to better acquaint himself with conditions. He found almost every available spot worked and he found available spot worked and also found that the average wage per day per

Sometimes if conditions were more favorable and a man was experienced in mining he could increase the amount to $1 or $1.500, but these cases were rare.

From time to time stories come out in the papers of rich finds and it attracts the attention of the public, and, in these times when there is a shortage of work, men think this easy work, but the truth of the matter is that it is hard work and pickings were gleaned in the early days, first by white men and later by Chinese.

It is only the gold that has been washed down since the gold rush days of the 50's that they are able to get. In a few cases there are certain spots which the early miners missed, but these are rare.

Mr. Bradley states it is surprising how many letters he gets from eastern states regarding gold mining. A particular instance on one of the rivers came to the attention of Mr. Bradley, in which 24 men and women were making a regular picnic of the experience. It was a surprise to him to see how well they all got along. If one of the party found anything all shared the work and the profits.

Methods in this type of mining have not changed since the early days, long toms, cradles, panning, and sometimes arrastras, are used.

—0—

OPERATIONS RESUMED AT THE ANCHO MINE

Word has been received in Nevada City that mining operations are again under way at the Ancho mine, which is situated in the Graniteville district, 30 miles easterly from Nevada City. G. S. Barnhart, H. C. Lewis and associates are the operators. The mine has been reconditioned after several months of idleness and underground development is being carried forward at an increasing rate. The mine is equipped with mill and mine plant. The ten-stamp mill is now running part time and capacity will be increased as new mining faces are prepared. A comprehensive development campaign is in prospect.

The Ancho, together with the adjoining Erie Mine, form a large and promising group of claims. The present operators feel that a project of first importance will result from their efforts. The mines already have considerable reserves of developed ore with unexcelled opportunities to be realized from further development.

The Nugget has printed many interesting articles on this property and is pleased to be able to announce its reopening.

—0—

MONTE CARLO MINE PLANS REOPENING SOON

Reports reaching up are that the Monte Carlo mine near Downieville will soon reopen. Some rich gold-bearing gravel was encountered last fall just before winter set in and closed down the mine. About $200 in coarse channel gold was taken out of a small space. M. H. Packard is the operator of the property. Joe Harkins will again be in charge of development work.

—0—

OFFICIAL RECORD MADE BY GRASS VALLEY GUERENSEY

A new official record for production has just been completed by a cow in the herd of Harry B. Cox of Grass Valley which entitles her to entry in the Advanced Register of the American Guernsey Cattle Club, Peterboro, N. H. This animal is two year old Collinsia of Barnegat 272202 with a production of 5700.8 pounds of milk and 336.8 pounds of fat in class GGG.

—0—

COMING EVENTS

At present quite a lot of interest is being taken in old gold mines and claims in this section. In a short time we hope to be able to announce some important mine transactions that will be beneficial to our section.

MANY FEATURES FOR BIG FETE ARE ANNOUNCED

Nevada City has taken on a gala appearance with the many flags and bunting all over the business district and the carnival is nearly assembled for the week end events. All this forecasts a celebration in this city which promises to outdo any previous celebration of the kind ever staged here. Chairman Tobiassen of the general committee has been working hard to perfect the plans for the celebration and from advance information we believe that he has succeeded in lining up some very worth while features for the three-day celebration of the Nation's birthday.

The festivities will begin Saturday night with a doll parade and baby show followed by a band concert, starting at 7:15 p.m.

Sunday morning at 8:30 o'clock will witness the start of the all-day skeet shoot at the grounds of the Nevada City-Grass Valley Skeet Club west of Nevada City. This event is open to all with prizes for the winners of the several events. In the evening the Miners Band will give a concert of a special program in front of the Elks hall. Mrs. Talbot has prepared a special feature from her dancing classes. The minuet and other dances will be danced by ladies in the costumes of the time of Washington. Frank Davies has prepared some special features for the same evening.

The parade will form the morning of the Fourth at 10 o'clock. A partial list of the floats and features of this event are as follows.

Grand Marshal R. N. McCormack.
American Legion.
Miners Band.
George Washington on horseback with two aides.
Goddess of Liberty.
Civil War veterans in cars.
Spanish American War Veterans of Roseville and Nevada City.
George and Martha Washington (portrayed by Mr. and Mrs. G. W. Gildersleeve).

Grass Valley—
Firemen of Grass Valley.
Native Sons of the Golden West.
Ladies Auxiliary of Legion.
Chamber of Commerce.
City Council.
Grass Valley Garage.
Sons of St. George.
Native Daughters of Golden West.
Grass Valley Boy Scouts.
Burtons Model House, Twin City Dance Orchestra.
Rodeo Association.

Nevada City—
Columbia.
Officers of the day, celebration officials and city officials.
Neighbors of Woodcraft.
Red Men and Pocahontas.
Nevada City Firemen.
Country Club.
County Farm.
Nevada City-Grass Valley Ski Club, sponsored by Nevada City Chamber of Commerce.
Piedmont Club, Camp Fire Girls.
Boy Scouts of Nevada City.
Nevada County Lumber Co.
Ray Teale, taxidermist.

Arrangements are tentative for securing the Columbia Park Band, but at time of going to press this feature is uncertain.

The Juvenile division of the main parade is not completed as we go to press.

The parade will consist of five divisions. Several other features have been promised, but they are uncertain at this time.

Short literary exercises will be held in the auto park just after the parade. Judge Raglan Tuttle will be the chairman of the day. The program committee has promised a very short and snappy program, and according to present plans, the entire literary program will not consume more than 45 minutes' time. Invocation will be given by Rev. Fr. P. O'Reilly. Trumpet duet, "Star "Star Spangled Banner," by Wesley Sweeney and Tony Weil.

Address, "Patriotism, 1932 Style," Rev. A. L. Pratt of Grass Valley. Singing of "America" by audience, accompanied by high school band.

In the afternoon a sports program will be held at the Plaza, consisting of boxing bouts and a water fight. This program, according to present plans, will start about 4 p.m.

A carnival has been busy erecting the various features of show near the Plaza.

—0—

STATE SUPREME COURT DISMISSES SLYE APPEAL

The state supreme court has dismissed the appeal of Joseph Slye, who was ordered by the superior court to return the Grass Valley Boundary mine and make a complete accounting to the Grass Valley Boundary Mines Co.

Slye purchased the mine in 1925, with an agreement with the company that he was to pay $150,000 and give a royalty of 20 percent of all ore extracted from the mine.

The company brought suit against Slye last year charging the purchase price had not been paid and that he had taken $500,000 in ore from the property without paying any of the royalty.

LEGAL NOTICE

NOTICE OF APPLICATION TO APPROPRIATE WATER

Applications 7024 & 7113

NOTICE IS HEREBY GIVEN,
That EDWARD BICKEL,
P. O. Box 881,
Nevada City, California

has applied to the Division of Water Resources, Department of Public

State of California
Department of Public Works
DIVISION OF WATER RESOURCES
Sacramento

Works, State of California, for permits to appropriate unappropriated water, subject to existing rights.

Description of Project
Application 7024

Date Filed: July 31, 1931.

Water to be Appropriated from: Greenhorn Creek, tributary to Bear River.

County of: Nevada

Amount applied for: 38 cubic foot per second

Diversion season named: January 1st to December 31st of each season

Water to be used for: Mining and Domestic purposes

Point of Diversion within: NE¼ of NW¼ of Sec. 10, T. 16 N., R. 10 E., M. D. B. & M.

Place of Use described: Sailor Flat Mine of Fenton Gold Mining Corp., within Sections 4, 5 & 8, T. 16 N., R. 10 E., M. D. B. & M., as shown on map filed with the Division of Water Resources.

Water will be returned to: Greenhorn Creek within NW¼ of NE¼ of Sec. 8, T. 16 N., R. 10 E., M. D. B. & M.

Application 7113

Date Filed: November 2, 1931

Water to be appropriated from: Little Greenhorn Creek (sometimes called Spanish Ravine) tributary to Greenhorn Creek, thence Bear River.

County of: Nevada

Amount applied for: 15 cubic feet per second

Diversion season named: January 1st to December 31st of each season

Water to be used for: Mining & domestic purposes

Point of Diversion within: NW¼ of NE¼ of Sec. 4, T. 16 N., R. 10 E., M. D. B. & M.

Place of use described: Sailor Flat Mine of Fenton Gold Mining Corp., within Sections 4, 5 & 8, T. 16 N., R. 10 E., M. D. B. & M., as shown on map filed with the Division of Water Resources.

Water will be returned to: Greenhorn Creek within NW¼ of NE¼ of Sec. 8, T. 16 N., R. 10 E., M. D. B. & M.

Relative to Protests

Blanks upon which to submit protests will be supplied free upon request by the Division of Water Resources.

Any person desiring to protest against the granting of such permits shall within 60 days from date hereof, file with the Division of Water Recourses, Sacramento, California. a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the applications and shall contain the following information:

(1) Statement of the injury which would result to protestant from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of such land or place of use and of the point of diversion of the water.

A COPY OF THE PROTEST SHOULD BE SENT TO THE APPLICANT AND THIS OFFICE NOTIFIED THAT THE SAME HAS BEEN DONE.

EDWARD HYATT,
State Engineer.

FRENCH CORRAL

Mrs. Ellen Smith and son, Ray, of San Francisco were Saturday visitors and returned to San Francisco Sunday.

Mrs. Earl Chatty and two boys and Mrs. Langdon of Sacramento made a trip to French Corral Saturday. Mrs. Chatty and children had been visiting Mrs. Langdon for the past week.

Miss Frances Moulton of Sacramento is home to spend her vacation with her parents, Mr. and Mrs. W. E. Moulton.

Rev. Fr. O'Reilly held services in Birchville last Sunday.

Mrs. Rose Pagnolia of Sacramento and her daughters and son and her brother Peter Fodrini, and the Misses Crummit, who were on their way to their old home in San Juan, reached Birchville just in time to attend services and greet old friends.

Mrs. Madge Carrig-Conway and sister, Mrs. Ray Ohlandt and Mrs. Daniels and B. Carr of San Francisco were Sunday visitors. Mrs. Conway and sister Mrs. Ohlandt are natives of French Corral and delight in coming back to visit their old home.

J. M. Kilpatrick and son, Stewart, of Los Angeles are camping under the pines.

A. Thornton, who received an injury to his hand recently, has gone to the Presidio for treatment.

Our entire community was shocked over the death of Johnny Thompson, who was a great favorite with everyone. His genial disposition and desire to always please made everyone his friend and he will be sadly missed. Our deepest sympathy is extended to the family.

INDEPENDENCE DAY IS FEATURE OF BICENTENNIAL

If George Washington were to ride this country today it is safe to say that, no matter in what city or town he might stop and hitch his horse, he would find Ma putting on her bonnet, Pa dusting off the car seat and Johnny tying up the dog, to join the rest of the citizens in a community celebration of the two hundredth anniversary of his birth.

America's day of all days this year belongs to George Washington. Clear across America, the mountains, the plains and the shores are literally ringing today with praises of the great American whose bicentennial is being celebrated this year with a vigor and patriotism unsurpassed in the history of our country.

More than 40,000 towns and cities have sent in reports to the headquarters of the United State George Washington Bicentennial Commission of local bicentennial committes which have made definite plans for this day. And plans are going forward with increasing enthusiasm for the remainder of the bicentennial—until Thanksgiving day, the day the celebration officially closes.

On the anniversary of the proclamation of American Independence, the bicentennial celebration of the birth of the man who more than any other made that independence a fact reaches a high point. There is scarcely a civilized country today where there is not some observance of this 156th glorious Fourth of July; and, according to report pouring into the headquarters of the bicentennial commission, these honors take the form of a tribute to George Washington.

0

PAY GUARANTY

Nevada City, Calif.
June 28, 1932

Editor of The Nugget:

California has long been one of the great mining centers of the world; like many other sections, it has long been in need of proper legislation protecting the innocent worker. It is my opinion that the situation can only be remedied by legislation stringent enough to prevent insufficiently financed companies from wrongfully depriving workers of their compensation.

I therefore offer the suggestion that "no company be allowed to operate in California unless a sufficient bond to cover fifteen days" payroll be posted."

A mere posting of non-responsibility can never relieve the original owner of the onerous burden of unpaid labor. They are, in the main, but they have, to a certain extent been participants. The very least an owner can do is to look up the financial status of the persons desiring his property. If they are unable to post such a bond, he should be wary of any dealings with them. This type of operator is a detriment to the mining world and should be discouraged. What better way than to discourage him at the outset?

Men who have been engaged for eight hours underground are certainly entitled to more consideration. It is unjust that they, after performing their alloted tasks, should have only the alternative of long drawn out and often unsuccessful legal battles to recover the money rightfully theirs. Under the existing conditions the legal procedure is always of great length and in the majority of cases unsuccessful.

Mining, long one of the bulwarks of California's security, is, and always has been, one of the hardest types of manual labor. A man is virtually imprisoned underground for eight hours, day after day. Pay day comes, there is no pay day; it is almost unnecessary to further elucidate on the sufferings caused by this contingency—it is a frequent occurrence and a great factor in the present mining depression gripping certain sections of California.

Under-financed operators, with only a lease as their assets, have employed men to develop the property. The stock, upon which they have placed all of their hopes, does not find a ready sale and we find a company with an empty treasury; unable to meet their obligations. The result can only be unpaid labor culminating in untold deprivations to the laborers and their families.

Can this condition be allowed to exist? In a world torn by the throes of depression can this great contributing factor be ignored? Will the legislators continue to allow this to impair the welfare of our state?

If a company can not comply with this law, either in cash or in a bond issued by some reputable company, they can not surely be expected to meet financial obligations at some later date!

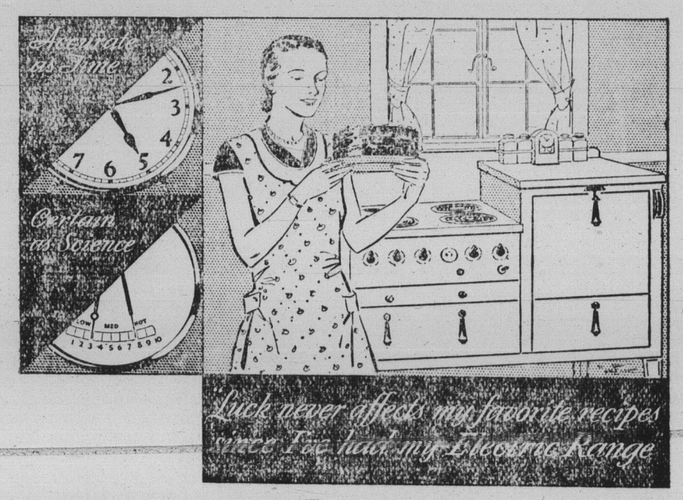
DICKERMAN DRUG STORE

★ MORE THAN 210,000 CALIFORNIA WOMEN SAY....

Electric Cooking is Economical...Scientifically Certain



When science turned to electricity as a means of lessening the labors of women in their household duties its greatest contribution was the electric range. When accurate thermometer temperature devices under automatic time control were made a part of the electric range, cooking became truly Domestic Science.

No woman need make guesses today with her baking—no woman need be worried about failure when she cooks with an electric range. When she cooks electrically she cooks by accurate recipe temperatures and can depend upon the precision temperature control to take all guesswork out of her most "fussy" baking.

For whole meal preparation for meats, vegetables, and cooked desserts, the woman who cooks electrically can place them all in an oven during the morning hours, leave the house for the rest of the day and come home again to a complete dinner perfectly cooked. For while she is gone the clock will turn on the clean heat of glowing electric coils and the thermometer will control the cooking temperatures.

In more than 210,000 California homes women cook not by luck but by electric cooking science. Recipes become time-after-time successes, for electric cookery is as accurate as time itself and certain as science.

See these modern marvels of cookery at your dealer's store or in your local P. G. and E. office. Electric ranges are not costly to buy and are economical to operate. Right now a Special Electric Range Offer is in effect which includes easy purchase terms.

LEGAL NOTICE

NOTICE INVITING SEALED PROPOSALS

On or before 12 o'clock noon July 9th, 1932, the undersigned Board of Education of Nevada City School District, will receive written proposals accompanied by specifications and bids for the construction or remodeling of a central heating plant at the Washington Grammar School, Nevada City, Cal.

Such proposals may be based upon either or both of the following plans:

(1) Remodeling and reconstructing the existing warm air heating plant, utilizing only such portion of present facilities as seem advisable, if any, and furnishing all necessary additions, including new furnace adapted to most efficient and economical fuel operation.

(2) Constructing an entirely new heating unit of such design and type as bidder may consider most efficient and economical for purpose indicated, and burning such fuel as seems most advantageous. In case oil is selected as fuel in either of these proposals, tank of a size best suited for economical purchase of fuel, to be included in bids.

All proposals and bids to be accompanied by such guarantees covering efficiency of operation, first class workmanship and material, as may be acceptable to the undersigned. The right is reserved of rejecting any or all bids.

Contractors desiring information regarding the above will please communicate with E. M. Rector, Nevada City, Cal. All bids to be addressed to H. A. Curnow, Clerk, Nevada City, Calif.

NEW RESTAURANT BUSINESS ANNOUNCES OPENING

H. W. Brown and Son of Megill, Nevada, are opening The Nugget Lunch room at the corner of Pine and Spring streets in the old Junior Chamber of Commerce building, this week.

Mr. and Mrs. Brown and their son recently arrived from Placerville, where they conducted a similar business, selling out so that they could locate in Nevada City. Mr. Brown states that he will particularly specialize in a ten-cent line of sandwiches and intends to serve the trade until 2 o'clock a.m.

—0—

INTERESTING DISPLAY OF FINE KITCHEN BUILTINS

An unusual display of ready-built kitchen cabinets and coolers has been assembled and placed on display at the office of the Nevada County Lumber Co. in Nevada City. The exhibit consists of sectional cupboards and drawers which may be incorporated in new construction or may be added to present facilities in any home. Some of the pieces have steel drawers with wood faces which feature any housewife will appreciate because of their easy cleaning.

There are cabinets with wood doors and others with glass doors. They may be had in small units or in complete new equipment. Included also is an assortment of wooden porch or lawn furniture.

A neat fence is being built on the street frontage of the yard on Boulder street. An arch is to be erected over the drive and the whole is to receive a coat of paint. Manager F. E. Conner plans a number of other improvements in the near future.

—0—

ELECTRIC WELDING CONCERN FURNISHES UNUSUAL SERVICE

A concern which will aid users of machinery to save many dollars is now located in Grass Valley. It is the Electric Welding Works and with their portable equipment they are in a position to go any where on short notice to weld broken or worn casting or to weld pipe line or, in fact, any metal which may be fused.

The equipment is mounted on a trailer and is self-contained which allows it to be moved and put into operation at once. The equipment is manned by experienced workmen and users of their services should reap dividends in the savings made.

SHRINERS' CONVENTION PROMISES FEATURES

To the tune of "Shriners You're Welcome, Make Yourself at Home," San Franciscans are preparing to play host to several hundred thousand nobles of the Mystic Shrine, their wives and families, and many other visitors who will flock to the City by the Golden Gate, July 26-29, for one of the nation's merriest parties.

Completely ignoring the depression, San Francisco Shriners are planning one of the most lavish displays of hospitality ever enjoyed at a convention of this sort.

The visitors will scarcely enter the boundaries of California before they will be greeted by delegations of Shriners on the lookout for them with fruit, flowers and good cheer.

When they arrive in San Francisco they will be escorted to their hotel or apartment or whatever domicile they have selected. Their baggage will be taken care of and all of the usual annoyances of travel will be lifted from their shoulders so that they can give themselves over entirely to the spirit of the holiday.

Bank of America Made Abitibi Power Depository

Bank of America has been designated by the bondholders and preferred stockholders' protective committee as a sub-depository for the first mortgage gold bonds series A, 5 percent, due 1953 and the 7 percent and 6 percent cumulative preferred stocks of the Abitibi Power and Paper Co., Ltd.

Bondholders and stockholders of the company are being advised that they can deposit their securities with any branch of the Bank of America. The protective committee was formed to safeguard the rights of both the stock and bond holders, following the failure of the Abitibi Power and Paper Co. to keep up its dividends on these two classes of preferred stocks and announcement by the company that it would not meet interest payments due June 1. The company is already in arreas four quarterly dividends on its 6 percent cumulative preferred stock, the last dividend being paid April 20, 1931. The 7 percent cumulative preferred stock is in arrears two quarterly dividends, the last payment on this being made October 1, 1931.

JUDGE JONES

(Editor's Note: Last week we published an editorial taken from the Truckee Republican, concerning the candidacy of Judge Tuttle. This week we are giving our readers the opinion of a supporter of Judge Jones. The editor of The Nugget is unacquainted with the qualifications of either of these men, and under these conditions feels that we can neither support nor condemn candidates with whom we are not sufficiently acquainted.

Judge Geo. L. Jones, who is a candidate for superior court judge, needs no introduction to Nevada county citizens. He was born at Truckee and reared in Nevada county.

His college days ended and bar examination passed, he entered upon the practice of law in 1897 and was elected district attorney, from which position he was elevated by the electorate to the superior judgeship, setting a new record by being elected three times in succession. In 1925 he resigned to assume the presidency of Nevada County Bank. While in office he served with great credit to himself and fairness to all, having demonstrated his judicial knowledge and capacity to fill the position.

In recent years Judge Jones has been called upon many times as a man of keen, kindly and brilliant mind to deliver addresses, lay cornerstones and conduct dedication ceremonies and many other such services.

Judge Jones has not only brought honor to his home county throughout his capable and brilliant career but has proven to the country at large that he is a man of distinguished ability. This is sufficient evidence in itself that the citizens of this county should not only show a high spirit of loyalty, but they should consider it a privilege and pleasure to elect Judge Jones in the fall election.

GET AN INTEREST IN A GOLD MINE

President Hoover's recent movement to urge "hoarded money" back into circulation calls attention to the fact that old Mother Nature is the greatest hoarder of all. She has billions of dollars worh of hidden gold buried in the earth. The best way to put that hoard of gold into circulation is to get an interest in the development of a gold mine. Help finance it. You can't struggle or quarrel over "old money" forever. Get yourself an income of "ne wmoney." Gold mining is one way out of the depression.

CAMPAIGN POSTPONED

Two weeks ago we announced the opening of a "weekly payroll" circulation drive. Owing to unforeseen conditions in this community the campaign managers felt that it was unwise to continue with the contest at this time but to go on where they left off at a near future date.

FIREWORKS ARE TABOO IN NATIONAL FORESTS

Dry leaves and pine needles in the national forests do not go well with fireworks, so small boys who will spend their vacation in the mountains have to produce Fourth of July noise in some safer way, according to advice sent out from the headquarters of the U. S. Forest Service.

"Firecrackers, skyrockets and other fireworks are classed in the regulations as a menace equal to lighted matches and burning tobacco," said Regional Forester S. B. Shaw. "Many persons do not realize the danger to the tinder-dry litter on the forest floor and bring fireworks to public camps and summer home colonies where a forest fire would endanger many lives as well as destroy timber and watershed values. This is one of the regulations necessary for the good of the several million visitors who will go to the mountains for their Fourth of July vacation."

NATIONAL INCOME

Despite widespread unemployment the national income for 1931 has been estimated at 70 billion dollars. Retail trade was around 40 billion dollars, or nearly double that of 1914. New life insurance in an aggregate of 16 billion dollars was written last year against 12 billion dollars in 1923. Gasoline consumption increased 4 per cent in 1931 over 1930, and it is estimated that 15 billion gallons will be used this year.

San Francisco Hetch Hetchy Engineering Dept. submitted low bid of $5,257,665 for completion of Hetch Hetchy water and power project.

NEWS IN BRIEF

Rossen-McCrary Wedding—

Rasmus Rossen and Ruth Richards McCrary were married in Grass Valley Sunday morning. She is a daughter of Mr. and Mrs. John Richards of that city, while the groom is a native of Nevada City, having graduated from the local high school. He is the son of Mrs. Mary Rossen, now of Oakland. Mr. Rossen holds a position with Swift & Co. They will reside in Oakland after a honeymoon spent at Lake Tahoe.

Evangeline Chapter Celebrates—

Evangeline chapter, O. E. S., celebrated its 59th anniversary Tuesday evening, playing the role of hostess to members from this city. Grass Valley, Marysvills, Maxwell, Colfax, Auburn and other chapter throughout the valley. It was voted one of the most successful social functions planned and executed by the local chapter for many years.

Frank Richardson Dies—

Frank Richards, native of Nevada City, passed away in San Francisco Thursday from an illness of long standing. He was the son of the late Mr. and Mrs. W. S. Richards. He assisted his father for a time in the management of the New York Hotel of this city. His brothers, Will and Thomas Richards, of Nevada City attended the funeral services in San Francisco. He was a member of Grass Valley aerie of Eagles.

Mrs. Julia Smith Weds—

Cards have been received here by relatives announcing the marriage of Mrs. Julia Allen Smith to Albert Howe in Reno June 27. They will make their home in Stockton. The bride is a sister of Robert Allen and Gainer Hopkins of Nevada City. She is a native of this city and grew to womanhood here, where she has a wide circle of friends, who wish her every happiness.

Mrs. Lola Worth, accompanied by the following guests, Mrs. Jewett Adams, Mrs. Mary Sessions, Mrs. M. Funston, Mrs. L. Whitworth and Mrs. James Davis enjoyed an overnight motor trip to Carson City, Nev. They visited Lake Tahoe and Carneva.

Mr. and Mrs. Wade Armstrong have gone to San Francisco, from which place they will sail for Honolulu to spend the summer. Her sister, Miss Lucy Ward, remained in Nevada City.

Mrs. Nellie Veale is spending a few days with her daughter, Mrs. Carl Ivey, in Chico.

Bynum Craig, agent for an auto firm of San Francisco, visited with his aunt and uncle, Mr. and Mrs. Robert Ewing, last week end.

F. L. Arbogast of Oakland passed through Nevada City recently enroute home from a couple of weeks spent in Graniteville.

Dr. Sidney Talbot and Dave Findlay of San Francisco were Nevada City visitors last week end. Dr. Talbot was formerly a physician of Nevada City.

Funeral services were held Sunday at North San Juan for John Thompson, 14, who died at the Nevada City sanitarium Friday. Rev. Buckner conducted the services.

Donald Strandberg of San Francisco was a recent visitor at the home of his parents, Mr. and Mrs. P. O. Strandberg.

State Mineralogist Walter W. Bradley and wife were week end visitors at the home of Mrs. Elsie Willoughby.

F. W. Bost, a former resident of Nevada City, and son, Dr. Crawford Bost, of San Francisco spent a few days here visiting their old home.

Mr. Clark of the Eagle Bird mine was a Nevada City visitor Monday.

Trial Held—

The trial of the People vs. J. M. Hoff, J. H. Rogers, A. G. Nicholson and H. A. Davidson as officers of the Nevada County Mines Corp., was held in Judge Mobley's court this week. They are charged with violating the state wage law and the semimonthly payday law. A number of witnesses were examined. Judge Mobley reserved the decision until he had a chance to review the case..

Mrs. Christy, daughter of Sherman Marsh, left Friday for New York to take her former position. Her husband will enter a hospital before returning east and later complete his law course. He held a fine position in Europe for some time.

The Ismert family, who owned a farm below Nevada City about 30 years ago, held a family reunion at Olympia Park last Sunday. They called on the Guenther family, who were childhood playmates, and visited the old home place. Those visiting in Nevada City were Mr. and Mrs. Henry Ismert of Kansas, Ed. Ismert and Mrs. Mack of Berkeley, and Mrs. John Irving of Sacramento.

Word has been received here that George Osterman and another engineer have returned from a trip to old Mexico in the interests of the McGraw-Hill Co., by whom they are employed. Mr. Osterman is a son of Mrs. Clara Scarf of Nevada City.

Mr. and Mrs. C. E. Phoenix of Bellingham, Wash., were in Nevada City this week looking over some mining properties.

J. J. McCabe, owner of the Chips mine which was taken up in 1865, passed through Nevada City Tuesday enroute to the lower country.

Ollie Cullens of San Francisco, came up Thursday to spend the week end with his family, who are visiting their uncle, James Dolan, and wife.

A two-car garage is being completed on the Dow property on Grove street.

John Labatie, well-known mining engineer, and Mr. Olsen, well known Los Angeles capitalist and mining man, were in Grass Valley transacting business Wednesday.

Mrs. Laura M. Hardenbrook, local inventor and physicist, was in Nevada City Friday on legal business.

Mr. and Mrs. Aubrey Wisker and Miss Alma Marsh spent Saturday in Sacramento.

Mr. and Mrs. Randolph Carter and son, Sheriff George Carter, were among a party who visited Lake Tahoe recently.

Mrs. E. R. McMath and son-in-law, Eddie Trimmer, motored from San Francisco Friday and spent the week end with her sister, Mrs. Chas. Guenther. Mrs. Trimmer and small son, who had been here visiting for three weeks, returned home with them.

Mr. and Mrs. Farmer spent Sunday in Bear Valley, near Emigrant Gap.

—0—

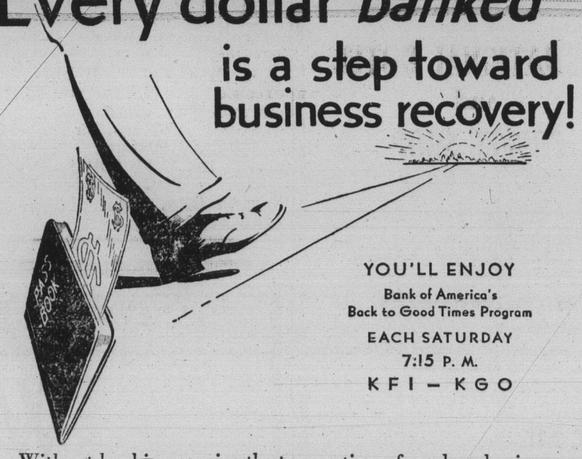
Every dollar *banked* is a step toward business recovery!


YOU'LL ENJOY
Bank of America's Back to Good Times Program
EACH SATURDAY
7:15 P. M.
KFI — KGO
Without banking service the transaction of modern business would be impossible. It would necessitate a return to primitive methods of barter and trade. Banks are the very life and backbone of industry. These essential institutions assemble money which is not in active use and safely loan it out to those who can advantageously put it to work . . . This continuous process keeps money in circulation, sustains all lines of industry and creates employment for all . . . With the whole-hearted cooperation of every Californian, the time-tested banks of this state can do more to bring us back to a sound prosperity than any other agency . . . Every *banked* dollar is a step toward business recovery. Every judiciously expended or invested dollar is another step . . . We are *on our way to good times.* Speed the journey through cooperation and common sense.
